History has recorded many maps...  
some of them right, some of them  
wrong. Still, let the record show that  
in any age, good or bad... there are  
people of high ideals, people of  
courage, people that do more than  
that for which they are called upon.  
We will not always know their names,  
but let their deeds stand as  
monuments so when the human race  
is called to judgement - we may say  
that this too - was humanity.
