Re Notification of Intent to Revise the Application — 2/4 Neville Park, City of Toronto

Further to the recent consultation meetings with the community, we are writing to request that the application be held in abeyance as we are currently working on revisions to the design in order to respond to the concerns raised to date, and in particular, in an effort to eliminate the requirement for any amendments to the Official Plan.

In furthering our intention to proceed in the spirit of continued consultation and cooperation, we confirm that we will agree to treat the application, when the revised plans are submitted, as if it were a new application in so far as the applicable timing for an applicant to file an appeal (should council refuse or reject and/or take no action on the file). We want to ensure that there is no doubt that we have no intention of appealing the current plans. Furthermore, we will give the City the appropriate time to review the revised plans, once they are formally resubmitted.

We look forward to reviewing same with City staff in the near future. Please be advised that we are confirming our intention to proceed in a cooperative manner so that the efforts of our team and yours are focused on a positive resolution of the design.

Best,

Dermot Sweeny,
